VI. Eventing MINIMUM ELIGIBILITY REQUIREMENTS OF ATHLETES & HORSES

Each NF must certify the minimum eligibility requirements of each horse and athlete and list the competitions which enabled horse and athlete to qualify, according to the qualification procedure established for each star level as laid out in Art. 506. Relevant level and criteria must be included in the schedule.

1.1. Principles

In order to compete at an international event, an athlete and horse must have obtained the minimum eligibility requirements at a number of events at a lower level.

The requirements are laid out below. With the approval of the FEI and their own NF, OCs may impose additional qualifications for horses and/or athletes, which must be published in the schedule.

1.2. Minimum eligibility requirements (MER)

The minimum eligibility requirements are achieved by completing a competition within minimum parameters of all round performance. As follows:

- Dressage Test: not more than 75 penalty points;
- Cross Country Test CIC: 0 penalties at obstacles
Cross Country Test CCI: not more than 20 penalties at obstacles
- Not more than 90 seconds exceeding the optimum time in the Cross. At 4* events, the maximum time by which the optimum time may be exceeded is 120 seconds; and
- Jumping Test: not more than 16 penalties at obstacles.

1.3. Certification of Qualification for Events

1.3.1. All NFs, including the host nation, are responsible to certify that athletes and horses entered by them in international events are correctly qualified in accordance with all the requirements of the Rules.

1.3.2. All qualifying events must be identified, and any national events must be certified as of at least the equivalent standard of difficulty as the relevant international star level of competition.

1.3.3. The Technical Delegate or his nominee shall check that all horses and athletes starting at all International events are properly certified as qualified by their NF or duly exempted in accordance with this article.

1.4. Qualifying Period and Deadline

1.4.1 Minimum eligibility requirements for CIOs, CCIs and CICs must be obtained in the calendar year in question or the 2 preceding calendar years.

1.4.2 The Minimum Eligibility Requirement at a CCI must be obtained at least 24 days before the Cross Country test of the event for which it is needed; a Minimum Eligibility Requirement at a CIC must be obtained at least 10 days before the event for which it is needed.

1.4.3 Minimum eligibility requirements may be achieved as a combination or separately by athlete and horse.

1.4.4 Where a Minimum Eligibility Requirement at a CIC is specified, one Minimum Eligibility Requirement at a CCI of the same level is equally acceptable.

1.5. Required minimum Eligibility Requirements (MER) for CCIO/CCI/CIC/CICO

| | |
|----------------|---|
| CICO3 * | Minimum 2 MERs required: 1x CIC 2* plus 2x CIC 2* or 1x CNC 3* |

Violation of this code will be dealt with by the respective Ground Jury or Appeal Committee, in accordance with the Rules and Regulations of the FEI.

THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands.

a) Good horse management

Stabling, feeding and training must be compatible with good horse management and must not compromise welfare. Any practices which could cause physical or mental suffering, in or out of competition, will not be tolerated.

b) Training methods

Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to any training methods which are abusive or cause fear or for which they have not been properly prepared.

c) Farriery and tack

Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid risk of pain or injury.

d) Transport

During transportation, horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent staff. Competent handlers must always be available to manage the horses.

e) Transit

All journeys must be planned carefully and horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

2. Horses and athletes must be fit, competent and in good health before they are allowed to compete.

a) Fitness and competence

Participation in competition must be restricted to fit horses and athletes of proven competence.

b) Health status

No horse showing symptoms of disease, lameness or other significant ailments or pre-existing clinical conditions should compete or continue to compete when to do so would compromise its welfare. Veterinary advice must be sought whenever there is any doubt.

c) Doping and Medication

Abuse of doping and medication is a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before competition.

d) Surgical procedures

Any surgical procedures that threaten a competing horse's welfare or the safety of other horses and/or athletes must not be allowed.

e) Pregnant / recently foaled mares

Mares must not compete after their fourth month of pregnancy or with foal at foot.

f) Misuse of aids

Abuse of a horse using natural riding aids or artificial aids (e.g. whips, spurs etc.) will not be tolerated.

3. Events must not prejudice horse welfare

a) Competition areas

Horses must only be trained and compete on suitable and safe surfaces. All obstacles must be designed with the safety of the horse in mind.

b) Ground surfaces

All ground surfaces on which horses walk, train or compete must be designed and maintained to reduce factors that could lead to injuries. Particular attention must be paid to the preparation, composition and upkeep of surfaces.

c) Extreme weather

Competitions must not take place in extreme weather conditions if the welfare or safety of the horse may be compromised. Provision must be made for cooling horses quickly after competing in hot or humid conditions.

d) Stabling at events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the horse. Clean, good quality and appropriate feed and bedding, fresh drinking water, and washing-down water must always be available.

e) Fitness to travel

After competition, a horse must be fit to travel in accordance with the FEI's guidelines.

4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over

a) Veterinary treatment

Veterinary expertise must always be at an event. If a horse is injured or exhausted during a competition, the athlete must dismount and a veterinarian must check the horse.

b) Referral centres

Wherever necessary, the horse should be collected by ambulance and transported to the nearest treatment centre for further assessment and therapy. Injured horses must be given full supportive treatment before transport.

c) Competition injuries

The incidence of injuries sustained in competition should be monitored. Ground surface conditions, frequency of competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

d) Euthanasia

If injuries are sufficiently severe the horse may need to be euthanased by a veterinarian as soon as possible on humane grounds and with the sole aim of minimising suffering.

e) Retirement

Every effort should be made to ensure that horses are treated sympathetically and humanely when they retire from competition.

5. The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in their areas of expertise relevant to the care and management of the competition horse.
